

“Hi. My name is Augie. I am a year old Calico cat. I began vomiting months ago. First it was just every once and a while, but now I am sick every day. Sometimes 3 or 4 times a day.

My momma has taken me to 2 different veterinary hospitals. I was treated for a virus and then Gastritis.

I have taken numerous antibiotics. I have been tested for feline leukemia. I have had X-rays and bloodwork. I have visited the doctors a lot this past month.

I am really tired of being sick and I definitely want to quit riding in my pet taxi to see the doctor.

The doctor told momma that I might have a bowel disease and need to have an endoscopy done. He will take biopsies and send them off.

This is expensive but my momma loves me very much so she did some research and found this awesome place which helps pets and their owners during their time of need.

It is called PAWS 4 A CURE. So I Need Your Help.

Please consider making a donation. Any amount would greatly be appreciated.

This will not only Help Me…But other Animals in Need also.

I want to Pay it Forward so please Donate whatever you can.

Thank You so much for Caring. It means the world to me and my fellow fur babies.”
