I was driving the mountain roads and out of the corner of my eye saw this tiny little puppy on the side of the road. I pulled the car over immediately, jumped out and picked up this tiny little puppy. I took him to my vet and was told he was about 5 weeks of age. He was skinny and scared. I named him Davie Jones after the singer.....As he grew he became healthier and happier and extremely spoiled. He was so smart, he was potty trained within a couple weeks. Since the time I brought him home he slept with me and he loved being under the blankets. This was 9 years ago. Davie has been my best friend and I always feel comfort and safe when he is with me. I can remember a few times when I was sad and upset and I would lay down with Davie and fall asleep holding him, He has always been my rock, my soul.

Davie has Lymphoma cancer. His prognosis is good and his response to treatment has been excellent. Davie has a total of 25 chemo treatments. He has been through 4 so far. . Each chemo treatment includes various medications, chemo treatments, fluid and , blood work. Before each chemo treatment blood work needs to be done to make sure his white blood cell count is strong enough to accept the chemo treatments.. Davie is also on several different medications to support his GI tract and on special food.

I am in my 50's and have always worked since the age of 15. I became disabled 10 years ago and since money has been extremely tight. I had a substantial savings which I have used so Davie would have the best of care. The cost of treatment is extremely costly and I have devoted every moment to trying to raise funds to save my best friends life.

I would like to "Thank" Paws 4 A Cure for their generous donation of $500.00 to help my boy Davie. I want to thank everyone for their support and donations to save my best friends life and fight this horrific disease. Davie is a very strong boy and I know with your help, one day he will be able to say "He beat cancer"!

Thank you and God Bless
