

Laddie - Nasal Carcinoma

"If it weren't for Paws 4 A Cure, Laddie would not have had a 2nd chance at life (he did have another great org help us last year, 2011)!! I have been unemployed for over 3 yrs and struggling to save my home and my 2 sweet Shelties. At 11 yrs old, Laddie was diagnosed with Nasal Carcinoma but is healthy in every other way. Thanks to Paws 4 A Cure, he is once again fighting this demon. Keri, the founder is in touch with his Oncologist when necessary and she is always checking in with me for an update. She has generously supported us through this very difficult time. When my financial situation either improves or is solved, I will donate to this amazing organization to help save/support other dogs and their struggling parents. Thank you Paws 4 A Cure for your time and generosity!"
