We are writing to express our deepest thanks for Paws 4 A Cure's recent financial assistance in the ongoing cancer treatments for our German Shepard "Iggy". It is generous gifts from organizations like yours that provide the financial and moral support needed for his continued oncology treatments.

There is no possible way we could have afforded to do this for him on our own. Your faithful financial contributions over past few months have demonstrated your deep commitment to the care and treatment of our furry friends and only because of this level of commitment he is alive today still.

Your support has repeatedly played a key role in his successful oncology care which without would have resulted in an outcome we can not even begin to think about.

There is no way to fully express our gratitude for your generosity towards his care and to us. We are continually inspired by your dedication and devotion towards animals. It's organizations like yours who answer the call to give again and again that make this world a much better place for all of us.

Even though his cancer appears to be going into remission at this point, we know Iggy is not out of the woods yet and will still most likely need additional treatment in the future. Knowing we have an organization as generous and willing as yours makes an already stressful time in all our lives much more livable for Iggy and us.

Sincerely,
Carl ,Erin and "Iggy"
