

“When I got the diagnosis that my girl Sofie had Lymphoma I was devastated that my baby was so sick. Besides being scared for her health, I was scared that due to my financial situation I wouldn't be able to provide her with the medical care she so badly needed. That is where Paws 4 A Cure stepped in. With their help I was able to provide Sofie with the medical care she needed. I will be forever grateful for the additional time that Paws 4 A Cure gave me with my precious girl.”
